

Dear Joe,

First I want to say how pleased I am with the relationships built between Vollara and the Miami Marlins. From our first meeting at the 2010 MLB Winter Meetings, you have been very generous and welcoming.

This year we had the opportunity to use your Living Water unit at Spring Training in Jupiter, FL. As with most new products, the players curiosities were sparked instantly when they saw your product. After a quick introduction for the players and staff, we had a select following. Within a few days that following began to grow due to the players hearing first hand testimonials from other players that were already reaping the benefits of hydration. Players were excited to be drinking water.

It is our goal to continue this relationship and to build on it for future years. By placing one of your units at each affiliate we can ensure our athletes are getting the proper hydration that they deserve.

Thank you again to Julia Chippetta and Ron Chaves for their hard work and inviting atmosphere.

The Miami Marlins thank you,
